📄 Summary

A passionate computer science student skilled in full stack development, eager to build real-world tech solutions. Looking for a role where I can learn fast, grow strong, and make a real impact through my work.

🎓 Education

B.E Computer science and engineering

Sri Sairam engineering college

Sep 2022 – may 2026 : Present   *CGPA : 7.80 / 10*

12th Grade

New prince matriculation higher secondary school

Sep 2020 – may 2021   *Percentage : 82.0%*

10th Grade

New prince matriculation higher secondary school

Sep 2018 – march 2019   *Percentage : 76.4%*

💼 Experience

Futurecalls Technologies private limited   **June 2025 – July 2025**

Full stack development - Internship   *Chennai, Tamilnadu*

- Gained knowledge on web application throughout my internship by working on tools like Xampp ,MySql and PHP
- Built and tested CRUD operations for dynamic web pages, connecting frontend forms to backend databases.
- Enhanced skills in writing SQL queries, table joins, and relational data handling.

⚙️ Projects

Gym management app | *React, Java Spring boot, MySQL*

- Manages memberships, trainers, workouts, payments, and attendance in a single platform to simplify gym operations.
- Offers member and trainer login with personalized workout and diet plans, progress tracking, and goal setting
- Provide an admin panel to monitor active users, revenue, attendance, and manage notifications or announcements.
- Tracks membership fees, sends renewal alerts, and supports payment gateway integration for hassle-free billing.

E-voting system and analysis | *MySQL, Blockchain*

- Designed a web-based e-voting system that enables verified voters to cast their votes digitally.
- Implemented separate modules for admin, candidates, and voters, with secure login, registration, and dashboard.
- Admins can create elections, manage candidate details, and monitor active elections.
- Connected the frontend with MySQL to store and fetch real-time data for user authentication, vote count, and candidate details, ensuring data integrity and transparency.

🖥️ Technical Skills

Languages	Frontend	Backend	Database	Tools & Frameworks
Java, Python, C	HTML, CSS, JavaScript	Java, PHP, Node.js	MySQL	Spring Boot, React, Git, XAMPP
